

SMARTSTAGE

# 9 Meter / 29' 6" Revolving Heavy-Duty Turntable

## RV9MHD

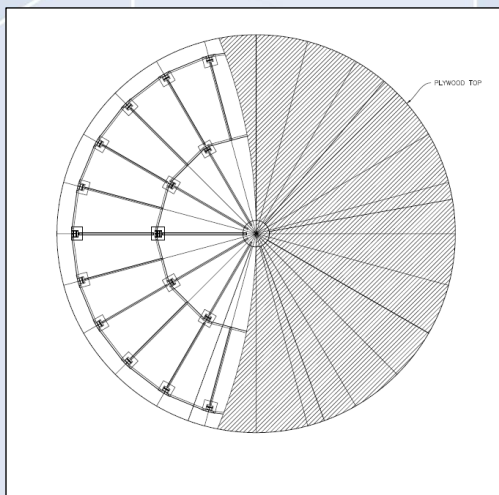

9 Meter / 29' 6" Heavy Duty Turntable. The revolving stages and platforms our customers require vary widely from small to large, differing in required turntable weights, strength and revolve size. They carry fashion models, automobiles, massive industrial equipment displays, entertainers with monitor mix and side-stage personnel, customized and creative designed spinning artwork and just about everything in-between that can be imagined.

### FEATURES - STANDARD

- Floating platform rated for typical applications
- Breakdown sections for transport
- 3/4 " birch plywood finish
- Self-contained drive unit with control
- Central hub for base and top

### FEATURES - OPTIONAL

- Electrical service on platform
- Variable speed / reversing drive
